### All India Hate Crime Cases during October - December 2022

***The last quarter of 2022 saw a total of 139 'Hate Crimes' cases in India. Out of these, 39 cases took place in October, 45 in November, and 55 cases in December.***

***The states leading in such cases were Uttar Pradesh, Karnataka and Madhya Pradesh, in addition to an effective Hate Campaign being run Online through different social media platforms.***

The use of Hate Speeches to sow the seeds of animosity and hatred against the minorities in the country dominated the narrative during October-December. Another modus-operandi adopted to harass the Muslim community was the use of 'Bulldozer Politics', i.e. the right-wing elements in power in different states instructed the local administration and police officials to launch a demolition drive against the Muslims and Dalits, without any apparent reason or giving advance notice to the residents, who were punished due to their identity and was a clear act of their opponents enjoying the spoils of power. Also, during the month of October, demands were raised to demolish Darul Uloom, Deoband, the oldest Islamic seminary in India, and one TV channel even aired a completely biased show with vitriolic headlines and captions demonising the Darul Uloom. In addition, a spurt against Muslim men who were caught offering Namaaz at open spaces by the Police in various states was also noticed.

Additionally, the period saw a continuation of the 'Love Jihad' narrative, rise in cases of atrocities against Dalits, but it would also be remembered as the one in which the home minister of India and a state chief minister indulged in 'hate speeches' against the Muslim community, the home

minister even went to the extent of saying that after 2002, Muslims in Gujarat have not dared to raise their voice against those who taught them a lesson in 2002.

Meanwhile, the 'Love Jihad' narrative continued to dominate the news in the month of December, however, the month also saw a sharp rise in cases of demolition of Muslim homes, violence against Dalits and Christians, and the Hindu populace being urged by a controversial BJP MP to keep sharpened weapons at home in order to teach them (Muslims) a lesson, if needed. We also witnessed a large number of cases where the majority community's various affiliated organisations under different names conducted open armed training sessions for the participants, participants walking down the streets with arms and ammunitions in their hands and these programmes were held in various schools to poison the minds of young school goers against the minorities of the country. The point to be noted here is that if the minority communities resort to such activities then they are termed anti-national and booked under various laws of the land, which doesn't allow an individual to possess arms or conduct arms training for others. In all, the various activities of the right-wing elements during the period contributed a lot to spreading an atmosphere of hate and viciousness against the minorities of the country.

### Hate Crime cases reported during October 2022

In the month of October, a total of 39 cases related to hate crimes were reported from different parts of India. The state leading in such cases was Uttar Pradesh (U.P.), followed by Karnataka and Madhya Pradesh (M.P.). Most of the cases reported during the month related to Hate Speeches and aftermath of another modus-operandi adopted to harass the Minority communities in India, particularly Muslim community i.e. 'Bulldozer Politics'. Also during the month, demands were raised to demolish Darul Uloom, Deoband and one TV channel even aired a completely biased show with vitriolic headlines and

**Justice and Empowerment of Minorities (JEM)** is an initiative of Jamiat Ulama-i-Hind, the country's oldest and largest socio-cultural organisation of Indian Muslims.

**JEM's** mission is to safeguard the human rights of country's minorities while countering hate speech targeted against them. It endeavours to collect, collate and present cases of harassment, in any form, perpetrated against the minorities by right-wing elements. It's aim is to promote Rule of Law and access to justice, equal rights, citizen's security and human rights, in addition to defending and empowering religious minorities, marginalised and persecuted individuals, groups and communities through Advocacy.

**JEM's** aim is to empower and provide justice and judicial assistance to the victims of such crimes, which could be categorised under 'Hate Crimes'. It further aims to strengthen the constitutional edifice of the country, which guarantees the rights and dignity of minority groups, apart from helping to build a vibrant, thriving and affluent India.

**JEM** publishes four Quarterly Reviews and an Annual Review every year, highlighting the hate crimes against minorities, and additionally responding to marginalisation and persecution of minorities, in addition to ensuring implementation of equal rights, justice and peace, religious tolerance and coexistence in the country.
